

MAY 2019

LEARNING ON WEDNESDAY

From largemouth bass to rainbow trout to walleye, the Tri-lakes region offers some of the finest fishing found anywhere in the United States. But it all started with one river, the White River.

Join naturalists Bryon Putman and John Miller to learn a bit of the history and ecology of Missouri's White River Lakes' fishery, as well as a primer on fishing in the lakes. You'll find out how the lakes were formed, how they differ and what fish species thrive in each of the lakes and ways to fish for them. Whether you are new to the Tri-Lakes region, or a seasoned angler, we hope you'll enjoy this program.

Where: Kimberling Area Library

When: May 8, 2019

Time: 10:00 a.m.

(coffee and breakfast bread provided)

Everyone is invited. Free to all. No registration required.
